

Remote Update Service

asyst:Remote Update Service™

USTI's **asyst:Remote Update Service** assures you that your **asyst®** products remain up to date with the latest releases of all the products your organization has licensed. Here is how it works:

You choose the frequency that you would like to have **USTI** remotely update your **asyst** products on your Master computer. Choose from the following:

- Weekly
- Monthly
- Semi-Monthly
- Quarterly

If you have **asyst** products installed on more than one computer, you will need to have Automated Update From Master ["AUFM"] installed on each client workstation. You can install AUFM yourself, or you can have **USTI** install it for a flat fee of \$150. By implementing AUFM, all of your workstations will remain up to date with the Master copy without you having to do anything.

After you sign up for the Remote Update Service, a representative from **USTI** will contact you to schedule a mutually agreed upon time for the service to be performed.

The pricing for **asyst:Remote Update Service** is a flat fee based on the number of **asyst** products you have licensed. The table below outlines the **asyst:Remote Update Service** fees. For example, if your organization has 5 different **asyst** products licensed and you choose to have the Remote Update Service completed monthly, then you will be invoiced \$35 per month for the service.

<u># of asyst Products</u>	<u>Fee</u>
1	\$ 25.00
2	\$ 25.00
3	\$ 25.00
4	\$ 28.00
5	\$ 35.00
6	\$ 42.00
7	\$ 49.00
8	\$ 56.00
9	\$ 63.00
10	\$ 70.00
11	\$ 77.00
12	\$ 84.00
13	\$ 91.00
14	\$ 98.00
15 and over	\$100.00

Think of how many times the solution to your HELPLINE call has been to get one or more computers "up-to-date" with the latest updates. Eliminate those calls and let **USTI** keep you current.
