

asyst:Hand Held

asyst:Hand Held provides a quick and easy interface between many industry standard Hand Held Meter Reading computers and asyst:Utility Billing. asyst:Hand Held allows your organization to:

Choose the hand held meter reading computer you wish to use.

Download customer information, in Meter Book and Route sequence, directly from your PC.

Upload readings from the hand held computer directly into the asyst:Utility Billing database.

asyst:Hand Held is part of a comprehensive system of individual asyst applications that can be mixed and matched to meet the most exacting needs of your organization. The asyst family operates in either a single user or network PC environment. Despite its ease of use and value pricing, asyst:Hand Held is packed with features that will make your work life easier and more enjoyable and result in more revenue for your organization.

asyst:Hand Held works very well with the Telxon Hand Held Meter Reading computers that are affordable, rugged and easy to use. Call **USTI** for the latest prices and information on available options.
